Booth Farms and Hatchery - - Clinton, Missouri

INTERNATIONAL EGG CONTEST AWARD WON BY THE BOOTH POULTRY FARMS

At the International Laying Contest of the Century of Progress Exposition, Booth Farms won the Championship Trophy for the best Trio of pens entered by one breeder with a total of 2948.25 points production for the three pens. One of these pens, a White Leghorn entry, was also highest pen of the entire Contest in number of eggs for both years.

SET NEW RECORD IN FLORIDA

The highest individual record for January ever made at the Florida National Egg Laying Contest was made this January by Booth Farms hen No. 25-1. Her record was 31 eggs for 32.7 points. This same hen continued her record breaking lay of 25 to 26 ounce eggs by laying 28 eggs in February, 30 in March and 30 in April.

Over \$100 Net Profit

Trumbull Co., Ohio, Feb. 8, 1936.

Dear Sir: I want to thank you for the chicks sent me last year. Their livability as chicks was remarkable, my loss in 200 to laying age being just four.

They certainly have been laying. During this past winter in a well-built but unheated house they have outlaid chickens from much higher priced hatcheries in this locality, even the coldest spells of this severe winter affecting them only to a very small degree.

From the first of December to date my 82 pullets averaged 65 to 69% production, making me a profit well over \$100.00.

Yours truly,

Ray G. Peterson.

68 Hens Buy Groceries

Crow Wing Co., Minn., Dec. 11, 1935.

Dear Sirs: When we take our eggs to town the clerks ask us what kind of hens we have. They say, "They must be different from the rest of the chickens around here. Every one else comes in with those measly pullet eggs while you have such big white eggs all the time."

Since October 1 they have bought all our groceries and their own mash. Not bad for 68 pullets. Yours truly,

Mrs. Carl N. Jacobson.

HOW TO GET PREMIUM PRICES FOR YOUR EGGS AND POULTRY--
A new copyright book describes 88 ways to sell eggs and poultry at a premium. We spent \$1000 collecting and arranging material into a book. FREE to our customers with each order of chicks for 1936.

For 12 Years A Chick Customer

Buchanan Co., Iowa
Nov. 11, 1935.

Booth Farms and Hatchery--

My order of AAA White Leghorns was delivered to me April 3rd. Since these are the best chicks I could buy, as shown by my success with Booth Chicks in the past 12 years, I had no trouble in disposing of the cockerels for breeding purposes.

The pullets are a fine lot - they are outstanding. We housed them October 1st and they are now laying over 60 per cent.

In the past 12 years we have ordered from 500 to 3000 chicks a year from you and have always been entirely satisfied. We know that we get quality chicks when we order from Booths.

Yours truly,

Mrs. C. B. Strayer.

Nets \$40 A Week

Fulton Co., Ga., Nov. 2, 1935.

Dear Mrs. Booth: I bought a thousand of your AAA White Leghorn chicks in the early part of this year, 500 in February and 500 in March. After selling the roosters as fryers from 20 to 30 cents a pound and culling out some of the backward pullets I had 400 good looking pullets left for my two laying houses.

These pullets began laying just gradually at 4½ months, but the first lot of February chicks were laying heavy through August, and both flocks were doing that through September and October. Since September 15th we have been getting from 20 to 22 dozen eggs per day from them, and the price for them to the many cars passing our home daily has been 40 and 45 cents per dozen, graded into two sizes. Practically every night we have sold out clean at the door without having to deliver any.

For several months back our feed bill including oyster shell, has not gone over, but has been approximately \$2.50 a day. You can figure for yourself that for our labor and investment we have been netting about \$40 a week since they have been laying 20 dozen a day.

Yours very truly,

Robert B. McCord.
